

ACCESSORIES

Pillow Ball Tension Rod

The rubber bushing of the OE tension rod has been replaced with pillow balls (NWB – spherical bearing) in all TEIN PILLOW BALL TENSION RODS. This was designed to eliminate toe changes through compliance of acceleration or deceleration. The strength of the rod allows only for vertical movement by lower arms. It also reduces the roll at corners and creates quicker steering response. In addition, the wheel alignment (caster angle) can be adjusted.

Bonnet Damper

The compact and lightweight Bonnet Damper is designed to eliminate the OEM bonnet stand. This allows for more workspace under the bonnet as it eliminates any obstructions. Also makes opening and closing the bonnet quick and hassle-free. Especially useful on vehicles equipped with large OEM steel bonnets, and for windy situations, as more stability is provided with the TEIN Bonnet Damper.

Adjusting Wrench

Ride height adjusting wrench for adjusting and tightening the spring seat and seat lock on ride height adjustable shock absorber. With improvements that could only be made by the suspension manufacturer, it is so easy-to-use and convenient, unlike the general-purpose hook spanner sold anywhere else.

Performance Bar

High body rigidity to bring out the shock absorber's full potential. The performance bar is a high-quality reinforcement part made of selected material under world class quality control. These bars reduce the twist and flex that occurs while driving, therefore allowing to obtain the absolute best out of suspension performance.

THE PARTNERSHIP

Fulcrum Suspensions Pty. Ltd. has joined forces with renowned Japanese suspension company TEIN Inc. to bring serious performance car suspension to the Australian market.

TEIN suspension, already has a strong cult following amongst Japanese performance car enthusiasts and Fulcrum has invested heavily in research and development to make the product much more suitable for Australian road conditions. To do this, TEIN suspensions supplied Fulcrum with their own highly experienced R&D manager, to work with our own team to oversee an extensive program to fit, measure, test and redevelop the TEIN suspension systems to the extensive range of vehicles listed in this catalogue.

REPAIR & OVERHAUL

Full current unit overhaul, re-valve or repair service and comprehensive product support NOW AVAILABLE

TEIN and Fulcrum are committed to their customers by offering service and technical support for all products. TEIN dampers in this catalogue will be serviced at our Moorooka facility by fully trained staff using original TEIN replacement parts. Fulcrum can customise the kits to suit driving needs through dampening force and spring rate changes. Warranty, inspection, overhaul, repair and many other services are available.

For Customer Support call us or visit the website for your nearest stockist.

Ph 07 3892 9000 or email:
fulcrum@fulcrumsuspensions.com.au

All listed part numbers* come with a 2 Year, 40,000 km warranty

www.tein.com.au

Be sure to read instruction manual before using and installing suspensions. We cannot assume any responsibilities for any damages caused by misassembling and incorrect usage. TEIN reserves the right to change product specifications, fitment, part numbers, price without notice.

Edition 3

High Performance Suspension

The optimal balance between sport performance and comfort.

THE ULTIMATE DRIVING WEAPON

Extract the full handling potential!

EXCLUSIVELY DESIGNED FOR AUSTRALIAN CONDITIONS

High Performance Suspension

TEIN SUPER STREET DRIVING MASTER DAMPER

by Fulcrum SUSPENSION

TEIN makes the promise to enhance the vehicles handling for the street or the track.

The coil over suspension is height adjustable, damper adjustable and in most cases camber adjustable.

The vehicle should have much more controllability whilst cornering. With the sixteen point damper adjuster you can control under steer/over steer with the twist of a dial.

The TEIN suspension is also height adjustable to help you fine-tune your car's on road ability. Unlike most sports and racing suspension the TEIN Super Street model still has an excellent quality ride which of course you can make firmer if you are intending a spirited drive or a track day.

- Compatible with daily "Street" or "Racing" use
- High Performance and extremely cost effective
- The damper is re-buildable for repair, overhaul or re-valving
- Ride Height Adjustable

16 levels of dampening force adjustment (compression & rebound)

PILLOW BALL UPPER MOUNTS

Offers greater feedback for driving sensitivity.

These mounts are designed to offer greater feedback for driving sensitivity. We use a NWB spherical bearing, which replaces the OEM rubber mount, to improve tyre grip and reduce the forces that change wheel alignment. In vehicles with front strut type suspension, an adjustable camber plate is available to correct the camber angles in the front of the vehicle. **Included as standard where applicable**

STYLISH SPEC DRESS UP MASTER S.TECH

Easy Low Down. High quality performance spring.

Easy suspension tuning is in your hands. S-Tech was developed so that everyone can enjoy sports driving. It is designed and developed to offer improved driving performance and superior ride comfort. It is constructed of material with tensile strength of over 200kgf/mm². Great styling, plus more fun to drive.

EDFC Electronic Damping Force Controller

Control damping force from the driver's seat.

This innovation makes it possible for the driver to control the damping force at the touch of a button while in the driver's seat. This is accomplished by controlling stepping motors installed on each shock absorber. This helps the driver to adjust the suspension to suit all road/track conditions.

OTHER TEIN PRODUCTS...

TEIN's many years of racing development has enabled us to produce suspension systems that will allow you to manoeuvre any corner, under any condition and allow you to drive as you always imagined. Our systems provide the crisp and precise road handling needed to be number one.

For part numbers not listed in this catalogue, please visit the TEIN Japan website for full listings and product brands available. Make a note and enquire to Fulcrum head office.
